

Universal Racking System

The Cambridge Connectors' Modular Interface Panel System is designed to provide a simple robust flexible method of presenting various connector interface schemes. Within a 19"/23" Rack enclosure we offer a large choice of "Snap in" faceplates covering most of the standard connector cutouts and we are happy to provide a custom made service.

Features:

- 19" and 23" rack compatible
- "Snap-in" system
- 2 Port BNC faceplates
- 9, 15, 25 way 'D' connector faceplates
- Full range of G.703 balun modules
- 2U high with 25mm recess
- Aluminium with Telecom Grey finish

The following standard component parts are available.
