**Cambridge Electronic Industries Ltd.
Statement on the Restriction of Hazardous Substances (RoHS) European Union
Directive.**

The European Union “Restriction of Hazardous Substances (RoHS) Directive” * came into force on the 1st July 2006. This directive restricts the use of certain substances in electrical and electronic products,

Restricted substances include:

Cadmium (Cd); Lead (Pb); Mercury (Hg); Hexavalent Chromium (CrVI); Polybrominated biphenyls (PBB) ; Polybrominated diphenyl ethers (PBDE)

It is Cambridge Electronic Industries Ltd.’s policy to comply fully with the RoHS Directive and provide RoHS compliant product where customer and market conditions require it.

By working closely with our supply chain partners, the majority of our products achieved compliance some time prior to 1st July 2006. In certain cases, where it is not possible to produce RoHS compliant alternatives, non-RoHS product will continue to be offered to those customers who specify its supply.

Part numbers have not been changed; RoHS compliance is indicated on labelling and shipping documentation and can be traced by batch identification.

*(Further information is available from the government website www.rohs.gov.uk)
